

Stanford Coordinators Network Aims and Objectives

Agreed on 28 April 2017

Aims

1. To create a stronger, louder, united voice among the Stanford provider community to achieve the ultimate goal of making self management support more widely available to people living with long term conditions
2. To keep up to date with latest information from NHS England, Stanford University and other key stakeholders in the field of self-management
3. To be a conduit for sharing information and developing constructive relationships with policy makers, other relevant networks and key stakeholders
4. To provide a forum for mutual support and sharing of skills and resources among managers of Stanford University programmes
5. To help develop tools and resources to enable Coordinators' to more effectively manage their programmes
6. To share good practice, learning and knowledge and contribute to the future development of quality assured self management programme

Objectives

1. Support THTA to secure funds to coordinate the Network, manage a two way flow of information and opinion with NHS England and other relevant stakeholders, develop an annual work plan and facilitate 2 Network meetings each calendar year
2. Work collectively in a spirit of cooperation and reciprocity to improve the quality of local self-management programmes
3. Make the case for evidenced based self-management and share information about the effective delivery of community interventions to key policy makers and influencers
4. Increase Network membership to encompass all Stanford University licence holders across the UK, Isle of Man and Ireland
5. Develop an effective, and user friendly virtual mechanism for Coordinators to provide mutual, support, share information and resources
